

Get in the Game Make graduation Your goal.

Plan for your future now.

**You could win \$529 for college!** One winner in each grade will receive \$529 in an Indiana CollegeChoice 529 Savings Plan, good for any education-related expenses. Learn more about the 529 Savings Plans at LearnMoreIndiana.org/529.

## Here's the game plan:

- 1) Fill out your name and other information on this page.
- Complete the "Degree Pathways" activity on the following page.
- 3) Mail both pages to:

Learn More Indiana Attn: Contests 101 W. Ohio Street, Suite 550 Indianapolis, IN 46204

Or, scan both pages and email them to contests@learnmore.org.

NAME: Mallory Moto	
GRADE: sixth grade	
SCHOOL: South Ferrace	Elementary
ADDR	
CITY:	DIANA
ZIP: <u>上</u> .	leanneas de la company de la c
10H9	W Sold tiden noon over noon
PAREI	

Don't sit on the sidelines! All entries must be postmarked o

both pages.

After completing the "Degree Pathways" activity, ask yourself: How does my high school plan match with my college and career plan?

My high school plan will help me qualify for the school of Vitorinary Medicine. It could give me a head start on learning the parts and muscle groups of different animals. That I would be treating. I plan to volinteer at Vanderburgh Kumane Society in the near future so I can better understand what they do: I would like to learn as much as I can now because vet school is particular in who they choose.

## DEGREE 'HWAYS

How can you plan for your future while in high school? Your high school diploma, course choices and college applications will all help determine your future.

Justin loves learning about electricity and is good at fixing things with his hands. His career goal is to be an electrician. Circle or shade all the light bulbs that represent something Justin should do in high school to get ready for his career and the education he'll need.

Diploma: Core 40 with Technical Honors. This diploma makes sure Justin earns enough math credits to enter an electrician's apprenticeship. Plus, it allows him to take electrical and construction courses in high school.

High School Courses: Construction Technology, Residential Wiring (Dual-Credit), Geometry, Algebra II. These courses will prepare Justin to learn more about electrical wiring. He'll need plenty of math to get into an electrician's program.

College Application: Electrician's Apprenticeship (4 Years) None of the other choices lead to certification as an electrician, which Justin will need to practice in the industry.

Your Turn! You can start planning your career pathway now, too.  My skills & interests (Think about recent test scores, your hobbies and what you like to read about.)  Ling really hara in school and get quat water, I have a naturity of animals kontaked are options (Enter results from a career interest inventory, or up to three careers you think match your, skills & interests.)  Magall since a younger age has been to be a watermaniam.  High school diploma (If you're not sure about your tyture career, the Academic Honors diploma is accepted at most Indiana colleges.)		
□ Core 40 □ International Baccalaureate	図 Core 40 with Academic Honors 口 General Diploma (requires parental appro	Core 40 with Technical Honors
High school courses (What courses - including internships - will help you prepare for the future?) Some of the courses Jurill take include Biology and animal Science.		
Education I'll need after high school	□ Two-year associate degree □ Four-year b	achelor's degree Master's or doctorate degree credential (On-the-job training)
